SEEKS A SETTLEMENT.

Grievance Against Government of Honduras For Murder.

BROTHER OF FRANK PEARS.

Two American Citizens Who Claim to Have Been Arrested Without Cause Are Unceremoniously Sent From the Country.

New Orleans, June 27.—B. B. Pears, the brother of Frank Pears, who was murdered in San Pedro Spanish Honduras, on January 31, and whose killing was made the subject of official inquiry by the United States, reached New Orleans on the steamer Breakwater.

Mr. Pears said that United States Minister Godfrey Hunter, who passed through New Orleans some weeks ago en route to his station, had taken absolutely no steps in the matter of pushing the demands of this government. Instead of going to Honduras he went to Guatemala City, where he has been ever since.

The Pears family will again take up the case at Washington in the hope of speedily having redress for the killing of Frank Pears. B. B. Pears says that the family does not care for the money indemnity. What he wants is the dismissal of Manuel Bonillo, who was in command of the Honduran troops in San Pedro when Frank Pears was killed by a sentry.

He has been refused permission by the Honduran authorities to disinter the body of Frank Pears.

The Breakwater also brought over John B. Richards and W. H. Harris, who were ejected from Guatemala by the government of the country under peculiarly aggravating circumstances. The men, both of whom are American citizens, discovered a gold mine in the province of Zacapa where they washed out \$17 worth of gold in one hour.

They went to Zacapa, the capital of the province, to have their claim recorded and a day after their arrival were warned by the authorities that they must leave the country. Instead they went back to their claim, where, on June 18, troops were sent for their apprehension. Richards was arrested (Harris escaping) and taken to Zacapa where he was thrown in a filthy prison with 36 other captives. He wired Minister Hunter telling him that he had been arrested without any cause whatever, asking that he be secured a fair trial and stating that he wanted to go on trial. Minister Hunter answered the telegram as follows: "I have received your telegram relative to your order of expulsion. The authorities claim to have proof to justify the order."

On the second day after his arrest Richards was taken to the train at the end of a rope and carried to Port Barrios under guard. At Port Barrios he was immediately imprisoned for two days without food. There he was loaded upon the Breakwater and his fare paid to this country.

He found Harris on the ship. Richards and Harris are indignant over their treatment and propose to bring the acts to the attention of the authorities in Central America for five or six years.

He represented the whisky firm of J. W. S. Brown & Co., of Louisville, in Costa Rica until six months ago when he secured a position with the Guatemala Central railroad. While working on a tie contract for that road it is said he harbored the party of Americans known as the Kansas City filibusters and in that way he probably incurred the displeasure of the Guatemalan government.

Found Dead.

Portland, Or., June 27.—News was received that W. H. McDonald, business manager of the Evening Telegram, has been found dead near Oak Point, 75 miles from this city. OPENING CONCERT

Of the Golden Jubilee Is Postponed For a Day.

Cincinnati, June 27.—At a meeting of the committee on arrangements for the golden jubilee of the North American Saengerbund it was decided to postpone the concert one day. The opening concert will not be given until Thursday night. Then the programs for Thursday will be given Friday and those announced for Friday will be given on Saturday afternoon and evening. This change is due to the delay in completing the Saengerfest hall.

Among visiting musical societies, none attract more attention this year than the Louisville Liederkranz, although many others are much larger.

At the first Saengerfest here in 1849, the chorus was composed of Louisville Liederkranz, the Madison Gesangverein, the Louisville Orpheus and all Cincinnati societies, and it contained only 118. There will be over 4,000 in the mass chorus this week.

The only society in the original fest of 1849, which will be present this week at the twenty-ninth Saengerfest, is the Louisville Liederkranz which has not in the past 25 years changed its name or been reorganized like most of the other societies. Outside of the five great choruses there are many more events scheduled for the week. At the meeting of the bund one of the chief features is the Commers and that part of the festival will continue over Sunday next.

While the societies have been rehearsing for months, yet general rehearsals did not begin even with the orchestra till last Sunday. These rehearsals will be repeated preceding the grand opening.

Nonunion Men Leaving.

Cleveland, June 27.—The riotous outbreaks were repeated in several quarters of the city, non-union men on Big Consolidated lines being stoned and forced to abandon their cars. Only two cars were operated by non-union men on the Broadway line, and these were repeatedly stoned, every window being broken and the conductors and motormen repeatedly struck. The non-union car men took to their heels, pursued by the crowd, but made their escape. The abandoned cars were wrecked by the mob. The exodus of non-union men from the city continues.

Survey Ordered.

Cleveland, June 27.—At the meeting of the Pan-American Railway company, held here, a survey was ordered made of the route from Tampa, Fla., south to a terminus on the Gulf of Mexico. Work will be commenced on the line as soon as profile maps can be submitted to the contractors.

A POPULAR REPUBLIC

Proposed by a Member of the Chamber of Deputies at Paris.

URGENCY MOTION IS LOST.

Pending Consideration of Question of a Revision of the Constitution, President Was Compelled to Suspend the Session.

Paris, June 27.—In the chamber of deputies M. Paul Deroulede, founder of the so-called League of Patriots, and member for Angouleme division of Charente, introduced a revision of the constitution with the view of substituting "a popular for a parliamentary republic," and demanded urgency for his motion.

The premier Waldeck-Rousseau opposed the proposition and asked that the committee be referred to a committee.

M. Deroulede requested permission to speak, but the president of the chamber, M. Deschanel, refused to allow him to do so.

M. Lascs, anti-Semite, member of the Condom division of Gers, accused the premier of having recourse to subterfuges and a violent tumult ensued. Several of the deputies tried to speak, but their voices were drowned and the president was compelled to suspend the session.

When it was resumed urgency was proposed for M. Deroulede's motion and it was defeated by a vote of 397 to 70.

Return of Mr. Doolittle.

Seattle, Wash., June 27.—W. G. Doolittle, of Irvington, N. J., has arrived here, after undergoing fearful experiences during the past year. He attempted to enter the Alaskan gold fields over the Edmonton route, but failed and returned to Telegraph creek out of food and just able to make his wants known. He said: "I have witnessed people coming in with hands and feet frozen, starving and suffering with scurvy. Of 14 men on their way to Telegraph creek nine perished in a snow storm. Three men were found dead in a cabin at Moose lake."

He went first to Kotzebue sound, but finding nothing there crossed over to Cape Nome with a portion of the party enduring considerable hardships. Part of the time the men had but two pan-cakes a day.

The suggestion made by Mr. Eastman has been eagerly taken up by referees and other interested parties throughout the United States and a large attendance is promised when the gathering convenes.

INCREASED WAGES.

Strike of the Stock Yards Employees Satisfactorily Settled.

Chicago, June 27.—The demands of the unskilled stock yard workmen in several departments have been granted and they returned to work. But in other department the workmen went out this forenoon to enforce their demands. Several hundred painters who demand an increase of two and one-half cents an hour joined the strikers' ranks. Another conference was held between the representatives of the packing firms in regard to arranging a settlement of the troubles. Most of the packers were in favor of granting the demands of the men.

The following statement regarding the strike was issued by Armour & Co.: "About a week ago the skilled labor at the stock yards was given an advance of about 25 per cent. The skilled labor made a demand, subsequent to the advance granted the unskilled labor and the wage scale of 1893 has been adopted. This practically makes the highest wages ever paid in the stock yards. There are a few who were not reduced in 1893 and whose wages now are fully up to the scale current and fully up to the best wages ever paid. All the packers in the stock yards are acting in harmony and contrary to rumors that have been current in some quarters, none of them have objected to a reasonable advance in wages that have not been up to the 1893 scale. The demand for increased wages came spasmodically from different gangs, but the meeting held by the packers includes all the laborers in the stock yards and the situation is now satisfactory."

Two Counterfeit Dies Made.

San Francisco, June 27.—It has been discovered that two dies, similar to those used by the United States and British officials at Hongkong in stamping the certificates of identification given to Chinese merchants and students so they may enter American ports, have been made in this city. The order for their execution was given to an engraver by two Chinese. It is presumed the dies are to be used in stamping forged certificates to be used by the Chinese note of the privileged classes. Collector Jackson says no action can be taken in the matter until forgery has actually been committed.

Back at the White House.

Washington, June 27.—The president and Mrs. McKinley, with the other members of the presidential party, arrived here at 10:30 a. m. and were driven immediately to the White House. Mrs. McKinley, whose illness cut short the president's visit at Adams, stood the journey very well and was slightly better on arrival. She contracted a cold while in New England and the change of weather seemed to affect her so that it was deemed wise for her to return to the White House. Her condition is not considered either serious or alarming and she is expected to recuperate rapidly.

Alloy of the Shamrock.

London, June 27.—It is said that the alloy of which the Shamrock is constructed above the water line is composed of three parts aluminum and one part nickel. Her deck is also said to be constructed of sheets of the same metal three-sixteenths of an inch thick, thus affecting a saving of about two-tenths in the weight of the deck line and stiffening the yacht's hull more effectively than could be furnished with wood.

New Geyser in Yellowstone Park.

St. Paul, Minn., June 27.—Private dispatches from the Yellowstone park say that from 9:20 a. m. until 10:25 a. m. Monday there was an eruption from the crater about 50 feet north of the Fountain Geyser, which has always been considered nothing more than a pool. The size of the new opening is about the same as that of the famous Fountain Geyser and played from 200 to 250 feet high.

STILL IN A DEADLOCK.

Democratic Convention at Louisville Resumes Balloting.

NO NOISY DEMONSTRATIONS.

The Three Candidates For Governor Divided the Votes of Delegates Just About as They Have From the Start.

Louisville, June 27.—The belligerency of the delegates to the state Democratic convention to all appearances, passed with the night.

Chairman Redwine ordered the first ballot for governor without arousing a word of protest. It proceeded in a humdrum way, the three candidates dividing the vote just about as they have from the start.

Conferences between the Stone and Hardin managers lasted till late in the night without bringing them nearer to an agreement. They have nothing in common save opposition to Goebel and that cause does not appeal strongly enough to their followers to bring about a working agreement. The whole contest still swings around the imperturbable Kenton county man who has from the start played his hand coldly and skillfully and has not yet lost a trick. The drift of the Hardin-Stone coalition is strongly toward Hardin in preference to Stone, but there is no sign yet that it can be made effective.

The fourteenth ballot resulted: Stone 378, Hardin 358, Goebel 356.

The balloting proceeded monotonously without any change in the strength of any candidate until 1 p. m. when a motion to adjourn until 3 p. m. was made by the Goebel people and carried.

From Porto Rico.

The troops are under command of Captain M. H. Macomb. On June 23 John Corbett, a dishonorably discharged soldier of battery G, Fifth artillery, jumped overboard and was lost. It is said his troubles had preyed upon him until he became demented. He had said many times that he would kill himself.

About Bland's Successor.

St. Louis, June 27.—Governor Stephens, who is in the city for a short time, announces that he will call a special election in the Eighth congressional district of Missouri about the first of September to fill the vacancy caused by the death of Richard P. Bland. The contest between the Democrats in the Eighth congressional district to succeed the late Congressman Bland is receiving a good deal of attention from the governor. He is a resident of that district and three or four of the candidates are his personal friends.

Climax of Jingoism.

London, June 27.—The St. James Gazette, which has been remarkable for its jingoism on the subject of the Transvaal, capped the climax by earnestly appealing to the British admiralty "to take immediate steps to counteract the plans of the representatives of the Clan-na-Gael from the United States, who are now at Pretoria, with the view of obtaining authority to start a fleet of privateers under the Transvaal flag with the object of looting Cape liners."

Kansas City, Mo., June 27.—Luther Kountze, of Kountze Bros., bankers of New York, is in the city for the purpose, it is said, of asking the receivers of the Kansas City, Pittsburg & Gulf railroad to extend its line to the town of Sabine Pass. DEMOCRATIC TICKET.

For Representative,
JOHN W. ALEXANDER.
 For Railroad Commissioner,
A. W. HAMILTON,
 of Mt. Sterling.

It is charged by the Hardin and Stone factions that the convention hall at Louisville was packed by the firemen of that city. Probably the other fellows thought some of the fighting and perspiring politicians ought to have the hose turned on 'em.

Much of the disgraceful wrangling in the Democratic State convention at Louisville is the result of the bitter fight between the Dispatch and Courier-Journal gangs to control the politics of that city. Neither crowd care a penny for the party unless they can use it to further their own base schemes.

A New Cure For Appendicitis.

[New York World.]

Physicians are interested in a new treatment for appendicitis which has just been successfully tried by Dr. George J. Helmer, of this city. Heretofore a surgical operation has attended the treatment of such cases. Dr. Helmer does not employ the surgeon's knife. The patient on whom the treatment was tried is a young woman living in Harlem. Her attending physician favored the usual operation. Dr. Helmer first tried his plan. This is simply forcing out the matter which clogs the appendix by superficial treatment. The largest muscle of the human body, the psoas magnus, which is just back of the appendix, is manipulated with the hand in such a way that a spasmodic contraction causes it to snap back against the vermiform appendix, forcing out of that organ any foreign substance it may contain. In the case of the young woman she was relieved in eight minutes.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

On July 2nd, 3rd and 4th the L. and N. will sell round trip tickets at one and one-third fares to all stations on their line and N. C. and St. L. railway. Return limit July 7th.

GOEBEL WON.

The Covington Senator Nominated For Governor on 26th Ballot.

Stone Had Been Dropped on Previous Vote and the Final Contest Was With Hardin.

The long-drawn-out and bitter struggle over the Democratic nomination for Governor is over at last, and Hon. William Goebel of Covington won, just as many of his friends and supporters had predicted all along.

After a day of quiet balloting, succeeding Monday's rioting, the great fight came to a finish shortly after midnight last night.

On the twenty-fifth ballot, Captain Wm. J. Stone was dropped, and the final ballot resulted:

Goebel	565%
Hardin	531%

In his speech of acceptance, which occupied less than five minutes, Senator Goebel said that he would have supported with earnestness and loyalty either of the defeated candidates had they won the nomination, and he had a right to expect and did not doubt that they would give him the same kind of support. He pledged the people a faithful administration of the affairs of the State if elected.

After Senator Goebel had finished, ex-Senator Blackburn, ex-Congressman Jas. B. McCreary, of Richmond; State Senator Charles J. Bronston, of Lexington, and others made speeches, counseling harmony and appealing to the factions to unite and give Goebel a hearty support.

There were loud calls for both Hardin and Stone, but neither put in an appearance. The convention adjourned at 12:15 last night till 10 a. m. to-day.

KENTUCKY CROPS.

Weekly Bulletin of the Weather Bureau. In Some Sections Rain is Badly Needed—The Outlook.

Warm weather prevailed during the week. The first part was dry, except a few showers over a small area in the north central portion, but local showers were of frequent occurrence during the latter part of the week. The rainfall was very unevenly distributed, and localities not visited by showers are suffering considerably for rain; where sufficient rainfall occurred, the growth of all crops was good.

The first of the week was very favorable for the harvesting of wheat and this was nearly completed, and in some sections threshing is going on. The yield of wheat is poor, generally varying from half to three-fourths of a crop. The quality is reported to be very good by most correspondents. Corn is doing very well, but in some places needs rain. Most of the early planted corn is now laid by.

Tobacco has suffered severely in some localities from grasshoppers; except from these attacks, tobacco is doing fairly well. There is still some tobacco to be set that has been delayed by dry weather.

Oats are in fair condition and ripening fast. Vegetable gardens and Irish and sweet potatoes are making good progress. The fruit prospect is not very encouraging. Apples are dropping badly and will be of inferior quality. A good crop of clover and meadow hay has been secured in excellent condition. Pastures and meadows are generally looking well, but would be benefited by more rain.

Force of Habit

Is the cause of some people dealing at a place for a long time without looking around, so that they never see the good values offered by others. Now look to your own interest, for once, and the next time you want to buy any Clothing, see if the many assertions made by Martin & Co. that they sell the best Clothing at the lowest possible price in Maysville is true or not. We handle three grades of Clothing. First—GOOD. This grade is for honesty of work, wear and color. Second—BETTER. This grade embraces the first and is more suitable for business office and Sunday wear. Third—BEST. Embraces all the best qualities that can be put in the make up of Clothing and comes a little high, but not too high for the best. Men's and Boys' Summer Coats, 25c.
